

Course Overview

Aqua Park Module 1 Day Course

The RLSS UK Aqua Park Module is a specialist qualification designed for lifeguards who are responsible for supervising and managing safety on inflatable aqua parks. This module builds on the skills developed through the National Pool Lifeguard Qualification (NPLQ) or equivalent, enhancing a candidate's ability to assess risk, perform rescues, and ensure guest safety in an open water inflatable environment.

This module is a vital requirement for any lifeguard working in an aqua park setting and is recognised across the UK. It prepares candidates to work confidently in these unique aquatic environments.

Prerequisites:

- Must be 16 years+ at the point of assessment
- Hold a current and valid RLSS UK NPLQ or equivalent open water lifesaving qualification
- Must be able to swim competently and demonstrate fitness to perform rescues
- Must have current RLSS UK membership

Course Delivery Sessions

The Aqua Park Module requires full attendance and active participation in both theory and practical elements. Sessions are delivered by qualified RLSS UK Trainer Assessors and typically include:

- Classroom-based theory sessions
- Onsite practical training on aqua park equipment
- Simulated emergency scenarios

Course schedules are subject to seasonal availability and venue-specific logistics. Please email info@tritontraining.co.uk for specific course dates and availability.

Course Content Includes:

- Understanding the unique hazards and risks of aqua parks
- Supervisory techniques for large groups in open water
- Effective positioning and scanning
- Entry, approach and recovery techniques on inflatables
- Rescue and recovery from various entry points
- Incident management and emergency planning
- Communication and coordination with team members and emergency services

Assessment

Assessment is conducted by a qualified RLSS UK Trainer Assessor. It includes both written and practical evaluation to ensure the candidate is capable of responding effectively to incidents within an aqua park environment. Candidates must demonstrate competence in all learning outcomes to successfully complete the module.

Enrolment

To enrol please head to the website www.tritontraining.co.uk or request further information, please contact: info@tritontraining.co.uk
